# Profile Daniel Ludevig

## Qualifications

Daniel Ludevig specializes in embodiment facilitation. His expertise lies in facilitating deep conversations for organizations and systems using a cutting-edge embodiment and creativity approach to address transformational change around culture, communication and strategy. Daniel brings together insights from the systemic change "Theory U" and his own movement methodology to support organizations through the discovery of their collective wisdom and how to produce sustainable results. His teachings and facilitations emphasize change transformation through topics like deep listening, leading and following, mindfulness and awareness, innovation, creativity and system dynamics. He also stands at the forefront of the "applied-arts in business" field by balancing left-brain business consulting with right-brain embodied technology. As such he works with companies and conferences worldwide addressing their greatest challenges of transformation through integrating profound wisdom from dance, movement, sculpture building and other art forms.
